What will a built-in vacuum do for me?

Vacuum cleaning is an essential part of modern living, but portable vacuum cleaners tend to be awkward. A BEAM built-in vacuum, on the other hand, is the most powerful, most convenient, and easiest way to clean your home.

**Nothing to sneeze at.**

Don't get left in the dust. BEAM Built-in vacuum systems are often recommended by allergists because indoor air pollution is one of the most common problems for allergy sufferers. Unlike conventional vacuums that can recirculate dusty air, a BEAM built-in vacuum system removes 100% of contacted dirt, dust, mites, pollen, animal dander and other allergens from the home.

**The quiet way to clean.**

Experience a quiet moment listening to the birds outside or listening to music while vacuuming. With the motor located away from the living area, the quiet hush of airflow is all you'll hear. Vacuum whenever you want without disturbing anyone's activities or sleep.

**A clean you can trust.**

A High Efficiency motor allows BEAM built-in vacuums to provide up to 50% more suction power than a portable. And the deep cleaning power and suction doesn't quit over time. Year after year, BEAM removes 100% of contacted dirt and debris from every surface.

**Lightweight control.**

With BEAM, vacuuming is light housekeeping, not a weight-lifting exercise or obstacle course. A lightweight hose and ergonomic tools let you move easily from task to task, level to level, floor to ceiling, and up stairs, without getting a sweaty workout from dragging around a heavy portable vacuum.

If dust recirculates back in to the room anyway, then what good is “never losing suction”?

BEAM Built in Vacuum systems remove 100% of contacted dirt, dust, pollen, and allergens completely from the home, never recirculating dusty air back in to the room you've just cleaned.

**Nothing to sneeze at.**

Many allergists recommend central vacuum systems for their patients as the best solution for removing indoor air pollution from the home.

Percent improvement of common allergy symptoms		
Nasal	47%	
Non-Nasal	48%	
Eye	61%	
Sleep	44%
